

AIRCREW MEDICAL CERTIFICATIONS

Streamlining Medical Certifications: Elevating Efficiency Through Digital Innovation

Serving Every Need

ERS's modernized, digital solution for the issue and oversight of Aircrew Medical Certifications, AME and AeMC approvals and certifications was developed in compliance with *Easy Access Rules for Aircrew* European Aviation Safety Agency (EASA) Regulation.

This advanced registry solution offers centralization, enabling Medical Examiners and Assessors to efficiently manage the applications, medical reports and issuance of medical certificates for pilots and cabin crew attestations.

Our Technology Solution

Aircrew Medical Certification solution key features and benefits:

- Adheres to EU and national regulations for medical certifications through pre-defined workflows
- Significantly increases efficiency and responsiveness through digitally streamlined applications
- Speedy referral/deferral process between AMEs, AeMCs and assessors
- Centralised, digital system of record-keeping, including details of aero-medical examinations and assessments while maintaining medical confidentiality
- Monitors data trends to ensure effective regulation compliance

Our Features

Reporting

- Advanced reporting tools provide detailed analytics on application trends, processing times and compliance metrics enhancing operational efficiency and transparency

Support and Training

- Extensive support and training resources, including detailed tutorials, user guides, interactive webinars and a Customer Success team to assist with onboarding, go live and ongoing support
